

SAFETY DATA SHEET

QUICK 'n BRITE PASTE

Section 1: Identification Of the Substance/Mixture And Of The Supplier

Supplier

Quick 'n Brite, Inc.
22313 70th Avenue West
Mountlake Terrace, WA 98043
E-Mail: allang@quicknbrite.com
Web Site: www.quicknbrite.com

Supplier Emergency Contacts & Phone Number

Allan Gourlie: 425-778-8285

Issue Date: 08/11/2015

Product Name: QUICK 'n BRITE PASTE

CAS Number: NA

Chemical Family: Mixture

Product/Material Uses

Quick 'n Brite Paste is an all-purpose cleaning product for use on all household surfaces.

Section 2: Hazards Identification

Hazard Classification(s)

HAZARD CLASSIFICATION(S):

Skin Corrosion/Irritation: Category 3

SIGNAL WORD: WARNING

HAZARD STATEMENTS:

Causes mild skin irritation (H316)

PRECAUTIONARY STATEMENTS:

P332+P313 - If skin irritation occurs: Get medical attention/advice.

Section 3: Composition/Information On Ingredients

Ingredient Name	CAS Number	Percent Of Total Weight
sodium cocoate	68814-96-0	4.5 - 4.7
sodium carbonate	497-19-8	1.4
sodium sesquicarbonate	533-96-0	1.4
sodium tripolyphosphate	7758-29-4	1.6

Section 4: First Aid Measures

Eye

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention immediately if irritation develops and persists.

Skin

Wash affected areas with soap and water. Get medical attention if irritation (e.g., redness, rash) develops and persists.

Ingestion

If swallowed, do not induce vomiting unless directed to do so by medical personnel. Call a physician or a poison

SAFETY DATA SHEET

QUICK 'n BRITE PASTE

Section 4: First Aid Measures - Continued

Ingestion - Continued

control center immediately. If person is fully conscious, give one or two cups of water or milk to drink. Never give anything by mouth to an unconscious person.

Inhalation

No inhalation first aid is anticipated to be necessary. Remove person from source of exposure to fresh air. Get medical attention if irritation develops.

Section 5: Fire Fighting Measures

Fire And Explosion Hazards

Thermal decomposition ("burning") may evolve toxic or irritating combustion byproducts, such as oxides of carbon and phosphorus.

Extinguishing Media

Use the appropriate extinguishing media for the surrounding fire.

Fire Fighting Instructions

Move containers away from fire area if safe to do so. Water can be used to cool and protect exposed material. Firefighters should wear self-contained breathing apparatus and full protective gear.

Section 6: Accidental Release Measures

Scoop up excess and place in a closed container. Scrub area well to reduce slipperiness.

Section 7: Handling And Storage

Handling And Storage Precautions

Keep out of reach of children. Store in a cool, dry, well-ventilated area. Wash hands thoroughly after handling.

Section 8: Exposure Controls/Personal Protection

Engineering Controls

None normally required. Large amounts of dried material may generate dust.

Eye/Face Protection

None normally required for typical household use. Safety glasses are recommended as minimum industrial eye protection when handling bulk product or performing spill cleanup.

Skin Protection

None normally required. The use of rubber gloves may reduce the chance of minor irritation or rash in sensitive individuals.

Respiratory Protection

None normally required. In case of inadequate ventilation, use NIOSH-approved respirator for dust (e.g., N95).

Section 9: Physical And Chemical Properties

Appearance

pink paste

Odor

a very light soap odor or odorless

Chemical Type: Mixture

Physical State: Solid

Melting Point: not available °F

Boiling Point: ~200 °F

Specific Gravity: not available

SAFETY DATA SHEET

QUICK 'n BRITE PASTE

Section 9: Physical And Chemical Properties - Continued

Percent Volatiles: 0

Vapor Pressure: not applicable

Vapor Density: not applicable

pH Factor: 9.6-10.5

Solubility: appreciable

Evaporation Rate: not available

Partition Coefficient (n-octanol/water): not available

Flash Point: None - Not Applicable, water-based cleaner

Flammability (solid, gas): None - Not Applicable, water-based cleaner

Lower Explosive Limit (LEL %): not applicable Upper Explosive Limit

(UEL %): not applicable Autoignition Temperature: not available

Decomposition Temperature: not available

Section 10: Stability And Reactivity

Stability: Stable

Hazardous Polymerization: Will Not Occur

Incompatible Materials

Avoid contact with strong acids and water reactive substances. May corrode some metals.

Hazardous Decomposition Products

Thermal oxidation (i.e., "burning") may produce decomposition products of carbon and sodium.

Section 11: Toxicological Information

Eye Effects

Eye contact with dust, mist or spray may cause mild eye irritation but is not a significant eye irritant.

Skin Effects

Product is slightly alkaline. Contact with skin and mucuous membranes may cause mild skin irritation, but is not expected to be a significant skin irritant.

Acute Oral Effects

Accidental ingestion of sufficient quantities to cause significant health effects is considered unlikely. Intentional ingestion of large amounts may cause nausea, vomiting, diarrhea and gastrointestinal upset.

Laboratory test animals given oral administrations of sodium tripolyphosphate experienced nervous system effects. The relevance of this information to human exposure is unknown.

Acute Inhalation Effects

There is insufficient information available for this product to assess acute inhalation toxicity. Inhalation of dust from dried product may cause mild nose and throat irritation.

Chronic/Carcinogenicity

Neither the product overall nor any of its ingredients are known to be listed as potentially carcinogenic by NTP, IARC, OSHA or ACGIH.

Reproductive Effects

Product and its ingredients are not expected to pose any significant reproductive hazards from normal use.

Mutagenicity (Genetic Effects)

No information is available regarding the germ cell mutagenicity of this product or its ingredients.

Ingredient(s) - Toxicological Data

sodium carbonate

SAFETY DATA SHEET

QUICK 'n BRITE PASTE

Section 11: Toxicological Information - Continued

Ingredient(s) - Toxicological Data - Continued

LC50 (inhal, guinea pig): 800 mg/m³ (2 hrs)
LC50 (inhal, rat): 2300 mg/m³ (2 hrs)
LD50 (oral, mouse): 6600 mg/kg
LD50 (oral, rat): 4090 mg/kg
sodium tripolyphosphate
LD50 (oral, rat): 3,900 mg/kg
LD50 (oral, mouse): 3,100 mg/kg
LD50 (dermal, rabbit): 4,640 mg/kg

Section 12: Ecological Information

Ecotoxicological Information

No information available. Not believed to present a significant environmental hazard.

Section 13: Disposal Considerations

Dispose in accordance with applicable federal, state and local government regulations. Dispose of bulk amounts in an environmentally responsible manner.

RCRA Information

Product is not formulated to contain materials which are listed as hazardous wastes or as determined by Toxicity Characteristic Leachate Procedure (TCLP). Does not exhibit characteristics of ignitibility, corrosivity, or reactivity.

Section 14: Transport Information

Proper Shipping Name

Not regulated for transportation

Section 15: Regulatory Information

U.S. Regulatory Information

Toxic Substance Control Act (TSCA): All ingredients of this product are listed on the TSCA 8(b) Chemical Substance Inventory or are exempt.

SARA Section 313 Notification

This product does not contain any ingredients regulated under Section 313 of the Emergency Planning and Community Right-To-Know Act of 1986 or 40 CFR 372.

Ingredient(s) - State Regulations

sodium tripolyphosphate
New Jersey - Workplace Hazard
Pennsylvania - Workplace Hazard
Pennsylvania - Environmental Hazard
New York City - Hazardous Substance
